# ABOUT US

Hello there,  
Thank you for showing interest and letting us know that  
you too believe in living a sustainable and eco-friendly  
life.

When we started Ecocradle, we just had just two things in  
mind, i.e. to empower people to take control of what  
products they use in their day-to-day life. Secondly, we  
thought of coming up with products that haven't scarred  
a single dot on the environment and incorporate  
sustainability into every part of its lifecycle, right from  
manufacture, to use to disposal. And that's how  
Ecocradle came into existence in 2018.

Ecocradle aspires to come up with a range of handmade  
and sustainable products in future, which are suitably  
designed to fit into an urban dweller's busy life, to help  
one make a smooth transition to a more sustainable life  
thereby feeling more responsible from inside. Our idea is  
to promote ecological living by devising products that  
are derived from nature. In short, we want to become  
your go-to option for everything sustainable & eco-  
friendly things that you use in your life.

# BODY WASH

LAVENDER

# TOOTH BRUSH

**BAMBOO**

Bamboo charcoal toothbrush, has a bamboo stick with charcoal bristles on the brush head. The bristles are BPA free. Charcoal has a naturally porous formation and when used in the mouth helps absorb bacteria and debris to effectively clean the teeth and gums. The charcoal absorbs and binds bacteria together and a microscopic level to reduce and remove from the mouth compared to a conventional toothbrush that scrapes and sweeps this away.

**INR 100**

Soft Bristles  
BPA Free  
Organic Bamboo  
Easy To Hold  
Charcoal Infused
